

The Check-out application allows the fiscal invoices to be managed according to the State Budget.

During the check-out the customer's bill can be previewed on the tablet so that the guest is able to check all data accuracy before the payment acceptance.

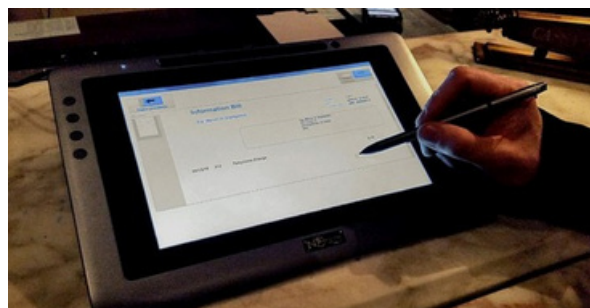

The PDF invoice contains all data including the payment details. A copy of the invoice can also be sent out by e-mail (if requested).

Check-out Diagram Flow

How it works

- The pro-forma invoice is displayed on the Tablet so that guest can check figures. They can confirm or not accuracy data;
- The operator issues the invoice with the PMS;
- The invoice will be displayed on the Tablet, and the guest could sign directly on the Tablet;
- After signing, the guest will have the option to receive a copy of the invoice via email. If necessary, a printed copy can also be provided.

Hardware used: Pc Tablet Surface GO 4 Wi-Fi with Windows 11 PRO

Functional description:

- During the check-out the pro-forma (draft) invoices and the final fiscal invoices are previewed on the tablet to give the customers the possibility to check their bills before the PDF e-invoice is generated;
- The application allows a copy of the e-invoice to be sent by e-mail (if requested by the customer).
