

NP provides a secure, cloud-based hosting service for archiving a wide range of documents—such as registration cards, disclaimers, and more—in full compliance with digital archiving regulations. Leveraging trusted cloud infrastructure from leading providers like AWS, NP ensures maximum reliability and data protection.

Security & Compliance Highlights:

- **Regulatory Compliance:** Fully aligned with legal requirements for digital document storage
- **End-to-End Encryption:** SSL/TLS protocols safeguard data during transmission
- **Proprietary Encryption at Rest:** Advanced encryption systems protect archived data
- **Trusted Cloud Infrastructure:** Built on robust platforms like AWS for resilience and security
